Interests

- I have interest in coding and learning new skills for more technological advancements.
- I am interested with working in teams to achieve desired goals and objectives.

Coding

I am a proficient coder who is simply interested in the learning aspect of the tech world. I code diligently with clean and efficient codes so that my fellow developers may understand the simple codes. In addition to this well laid out comments that are structured to explain the section of the code and what it does. In simple terms I inherit good coding skills and also adapt to new coding environments.
